About Us

The company is a Native American, Woman Owned, Small Disadvantaged Business (SDB) in a HUBZone. The founders and executives merged to form a Native American, Woman owned company specializing in Custom Software Solutions, Database Solutions, Computer Consultants, Project Management Solutions, Technical Help Desk Outsourcing Solutions and Technical Staffing Solutions.

We are members of the Oklahoma Association of Personnel Consultants (OAPC) and the Texas Association of Personnel Consultants (TAPC).

We are active members of the Project Management Institute (PMI) Chapter in Tulsa and the Knowledge Management Association (KIPA). We have held positions of Director of Finance and Volunteer Committee Chairperson.

We are also members of the Software Developers Association in Tulsa.

Our key employees include:

Yovenne Yeager, President – possesses over 20 years of Corporate, Military, Human Resources, Labor and Employment Law experience. Yovenne is a member of the Cherokee Nation Indian Tribe in Oklahoma.

Eric Yeager, Vice President – possesses over 13 years of Technical Recruiting, Marketing and Account Management experience. Eric has successfully recruited and managed all levels of IT, Telecom, Project Management and Engineering Professionals.

John Yeager, Senior Project Manager – possesses 40 years of software development and project management experience dealing with small to very large complicated computer systems. He has managed 100 person projects on some of the largest computers system in the world. He also possesses 25 years of building technical teams and staffing experience.

We also possess teams on Consultants and Contractors to help our client's analysis, design, build, manage and implement custom software and database solutions. We also provide expert post implementation support for maintenance and enhancements.

Software/Internet Solutions

We develop online applications, real time databases and sophisticated web sites to support our client's web, E-Comm and E-Business needs. We are able to create, implement and host any e-business solution. We also specialize in bridging older technologies to web based environments.

The Software/Internet capabilities include:

- Web Development – Design, Graphics, Flash, Web Contents, etc.
- E-Commerce Solutions – Shoppingcart, Merchant Accounts, etc.
- E-Business – Automation, Bus-Bus, Mainframe to Server/PC
- Custom Software – Midrange Systems
- Custom Software – Microsoft Languages and Databases
- Large System Designs and Project Management

Consulting and Contracting Solutions

We provide companies with information technology and engineering professionals on a time and materials basis or for projects ranging from Software Development, E-Business Solutions and Enterprise Solutions to Web Page Development and Network Management.

Consulting and Technical Staffing Services:

- Certified Software Engineers, Designers and Developers
- Certified Network Engineers and Systems Administrators
- Telecom Engineers and Project Managers
- Database Designers and Administrators
- Web, Internet and Intranet Developers
